A fun and educational tool to view Morse code coded messages. The Canadian Navy has signed a deal with the Russian Navy to purchase four new Terti submarines to fill the gap left by an earlier cancelled deal. This comes two months after the Royal Navy said it would cancel its existing orders of the diesel-electric attack submarines. Both ships would replace the Royal Canadian Navy's aging Treglia class submarines, Police say a man shot his daughter at least 30 times in the head in the bedroom of their home. Pierre Lefebvre, 64, was arrested Friday after two children were taken to hospital. The shooting happened around 3 a.m. The children, who suffered a few minor injuries, are expected to survive. Lefebvre told police he was angry at his wife and went into the bedroom. He then allegedly shot his children, ages 9 and 12. A 31-year-old woman from Queen Victoria Road has been fined \$1,000 after she was caught by a police dog while drinking in a public place. The dog was checking the beer garden of a Caltex service station at Rostrevor Road about 12.10am on Wednesday. During the search, the woman, who had been in the beer garden for about an hour, allegedly tried to swallow the can of beer. Police found the can of beer in her She thought it was a young boy, she thought he was in trouble so she called the police and watched him to see if he was okay. And she was the one who got into trouble. Police said the vehicle did stop briefly as the driver looked at the flashing lights and then proceeded to drive out of the parking lot. A woman in India has been arrested after she killed her 21-month-old baby in a supermarket in east Delhi, police said. The mother was arrested after she was found by police lying on the floor with her 23-year-old daughter next to her after allegedly stabbing the girl more than 30 times, police said. A spokesman for the city's hospitals said he did not know if the child's injuries would have been fatal. A Russian woman, her two children and their boyfriend were also arrested. Witnesses say the woman was shopping with her children at the time of the incident on April 20, 2008. The woman and her boyfriend were apparently not on good terms, and they went into a back room of the shop. The woman said she wanted to quit

Please share this app to your friends with the link below. Windows Store Link: Visit this page: Morse code is an international code for communication among people and ships that went into mass production in 1836 for the telegraph. It is the use of a complex system of short and long clicks as it is transmitted by sounding or flashing a sound telegraph into the air. It is a form of communication by telephone which is much faster than writing down the message and transmitting the written form, or sending an instant message. This telegraphic protocol was developed by Samuel F. B. Morse. For those interested, you can try out Morse Code, a free online code-dip/dispenser. Just enter your preferred message and click the mouse to display the code and receive the message. In the full version, you can switch colours or even change the voice. You can also make your own codebeads, which can then be shared with others by email or posting on forums. Morse Coder is an educational tool to teach or just help you learn International Morse code. People learn Morse code for different reasons. Some want to transmit message using Morse code and others want to decode messages like the homing beacon for airmen to find their way. The signs and symbols used in Morse code are written in the upper part of the window and their corresponding visual representation in the lower part. In addition to that Morse Coder also draws a circle at the center with a dot inside which indicates the transmission time per letter. Now you can easily copy, paste, change message contents and even play and stop transmissions by clicking on the light or sound buttons on the bottom left. For advanced users there are also settings to overwrite certain characters in the transmission. The only thing that will occur is that the dots or lines go missing on the given line. However, you can also change the line length, the number of dots

and the width of the lines for better readability. Morse Coder needs an internet connection to translate the Morse code. You can use any modern browser for this. The number of dots/lines per letter depends on your monitor resolution. The fonts used for Morse code are custom made and all symbols are reproduced from an original ASCII table. If you are interested in learning Morse code, this is a great app. Morse Coder Screenshots: Features: Learn Morse code from the start Learn Morse code using the clean and intuitive interface Transmit messages in Morse code, either using text or a voiceover Tick the Light or Sound boxes to see how your message would look like transmitted Play and pause transmissions by clicking on the Play button on the bottom left Option to overwrite certain characters in the transmission Change parameters like the line length, number of dots per letter or line width For advanced users, you can change line length, dots per line, font and, if needed, a couple of other small settings There is no sound record function Morse Coder Screenshots: What's New in Version 7.8.1: Bug fixes You can find Morse Coder in the Windows Store [HERE](#) You can find Morse Coder in the Windows Store [HERE](#) Morse Coder is an educational tool to teach or just help you learn International Morse code.
