Tried playing it. Literally nobody else was on, then I tried making a room and it completely wrecked my computer. Everything went non-responsive.

Can't believe I paid for a game that doesn't even work.. Its a very fun game sometimes people are on sometime not I just wish more people would play this game and give it a chance.

I would also like more content added. Very fun. The game has no quit button. I really wanted a quit button.. The game has no quit button. I really wanted a quit button.. Its a very fun game sometimes people are on sometime not I just wish more people would play this game and give it a chance.
